

Downloading Anaconda for your Computer

1. Go to <https://docs.anaconda.com/anaconda/install/mac-os/> (mac) or <https://docs.anaconda.com/anaconda/install/windows/> (windows) and then click on the link saying Download the Anaconda installer.
2. Click on the black download button. It will take you to the page shown below. Click on the 64-bit graphical installer for mac or windows accordingly.

Windows 	MacOS 
Python 3.7	Python 3.7
64-Bit Graphical Installer (466 MB)	64-Bit Graphical Installer (442 MB)
32-Bit Graphical Installer (423 MB)	64-Bit Command Line Installer (430 MB)

3. Download and follow the instructions on your computer for installation. When done installing, move the application into the applications folder.
4. Open Anaconda and run the application. For our research, we used Spyder as the primary python interpreter.
